Gijón, 18th December 2023

Dear Professor Mones:

This letter serves to reconfirm our commitment with the “All Electric Society” International Summit (Focus Emobility), no longer a project but a promising reality. A summit to be held in our city on September 2024.

Now than the scope of the meeting has been enlarged, that we know the legacy that the summit will leave for Gijon and its university and tanking in that you already have a more precise view of the budgetary requirements of this professional meeting, we are also in a position to establish our final financial contribution.

I am pleased to inform you that you can count on a final sponsorship of €14.500 (fourteen thousand five hundred euros) that which we will endorse by signing a contract next January.

All this, without prejudice of the rest of commitments I already stated in my letter of 12th June this year.

- Permanent technical support from Gijón Convention Bureau.
- Collaboration in communicating and disseminating the summit:
- Discounts for conference attendees with the transport companies with which Gijón Convention Bureau has signed cooperation agreements (RENFE, ALSA and Iberia).

We hope that the appropriateness of our infrastructures, the unquestionable attractions of our city and region as a tourist destination and our firm commitment to collaborate with the local committee will be sufficient merits for Gijón to be declared as the host city por this first “**All Electric Society**” **International Summit (Focus Emobility)**, in 2024.

Yours sincerely,

Daniel Martínez Junquera
Managing Director
